Connecting Laptops to Projector in room BSB 159

***The projector in 159 BSB uses a VGA connector***

Make sure the laptop has one of these connectors:

![VGA](image1)

![DVI](image2)

![Thunderbolt](image3)

The PRC has the following adaptors (Located in BSB 160 in “Hardware Supplies” cabinet):

![VGA to DVI](image4)

![Thunderbolt (Mini DisplayPort) to DVI](image5)

***All other adaptors will need to be brought in by those wishing to use the projector***
Once ready to hook up laptop, unplug the cable from the Instructor PC (see below) and follow these steps:

Steps for Connecting a Laptop to a Projector

1. Make sure your computer and laptop are both turned off.

2. Connect the video cable (usually VGA) from your laptop’s external video port to the projector. (Plug cable into adaptor if needed)

3. Plug your projector into an electrical outlet and press the “power” button to turn it ON.

4. Turn on your laptop.

5. If you need audio for your presentation, connect the laptop’s “audio out” port to the projector, or to another sound system.

6. Sync the projector and laptop by holding down the FUNCTION key and pressing one of the following keys to toggle:

   (Note: Depending on your computer, you may have to use a different F key than those listed above.)
